Monday/Wednesday Seminars - DVC Fall 2015

Foreign Language Lab	Rosetta Stone foreign language course. You will be taking your language online using Rosetta Stone with the support of a teacher in the classroom. You must complete 2 years of foreign language (3 recommended) to complete your graduation requirement, and should make this your selection for either M/W or T/Th unless you have made other arrangements, such as independent study, with Nathan.
Introduction to	This is a college course offered through Antioch University Los Angeles. You will receive a college transcript
Speech and	with this course listed after successful completion.
Debate	11 th graders and 10 th grade with administrative approval.
4 Days/week	This course introduces students to key skills and techniques in public speaking and provides experience in a
	variety of speaking styles. While the course is performance-based, theory is introduced for each type of
COLLEGE	speaking, and skills of critical listening, flowcharting, and analysis are developed in addition to presentation
COURSE	skills.
Blanket and	Come learn how to make beautiful blankets and quilts! Whether you have been sewing for years or have
Quilt Making	never used a sewing machine this seminar is for you!!! You will get to choose your own pattern, fabric and
	make a blanket or quilt you can snuggle with all winter. We will be learning how to piece quilt tops, bind
	blankets, and have fun while sewing.
Calculus	Integrals, limits, derivatives, oh my! In calculus support we will make your life less stressful by going over any
Support	and all misconceptions, points of fear, and content that seems too hard. We will work together on homework
	so you have more time at home to enjoy doing what you love to do. Together, we will all love calculus!!!
Ultimate	Your teammate cannot run – she is holding the disc, desperately searching for someone who's open. You
Frisbee	sidestep your defender and cut up the field as the disc is thrown high into the air. Running at full speed,
	judging the wind, watching the Frisbee float towards the end zone, you jump as high as you can snatching the
	disc out of the sky. Just another point scored in a game where few scoring plays are alike
	An active way to stay healthy and have fun while getting an awesome workout, Ultimate Frisbee is non-
	contact team sport great for anyone who is willing to give their best mental and physical effort. Combining
	the non-stop movement and athletic endurance of soccer with the aerial passing skills of football, a game of
	ultimate is played by two teams with a flying disc (Frisbee) on a field with end zones, similar to football. The
	object of the game is to score by catching a pass in the opponent's end zone.
	Recently recognized by the International Olympic Committee, Ultimate Frisbee is eligible to compete for
	inclusion in future Olympic Games and is one of the fastest growing team sports in the USA. One of the most unusual elements of Ultimate is the concept of Spirit of the Game (SOTG). SOTG makes Ultimate unique
	because it allows for self-officiating rather than the use of referees, as in most other sports. This promotes a
	mutual respect among players and allows for development of conflict resolution skills.
Rock Band	In "Rock Band," students ranging from absolute beginners to budding rock stars, will be provided group
NOCK Dalla	instruction on the various instruments comprising the modern rock band-guitar, bass, drums, vocals, and
	keyboards. Students will garner and understanding of basic music theory and technique, as well as participate
	in regular classroom and public performance showcases.
Zen Teens	Zen TEENS program teaches functional and athletic movements encompassing all ten general physical skills
Fitness	(cardiovascular endurance, strength, stamina, flexibility, power, speed, balance, coordination, agility,
11111633	accuracy). Students will learn the foundations of programs such as: The Brand X Method, CrossFit & StrongFit.
Design	This seminar will approach design and architecture with an experimental and fun approach. Each week we will
Experiments:	create a 'design experiment' using different materials and techniques. These 'design experiments' will
1 ·	investigate the unique relationships between the artist Pablo Picasso and contemporary architecture.
Architecture &	Picasso's use of abstraction, cubism, and form has made a major impact on how we understand and design
Picasso	architecture. This class should be a fun and interesting look at the relationship between art and architecture.
Cake Decorating	In this seminar students will learn the art of frosting and fondant. Students will learn the difference between
	American Butter cream, Swiss Meringue, Italian Meringue, Royal Icing, Fondant and Gumpaste and their
	purpose on a cake. A wide range of piping skills will be taught, from simple borders to decorative writing to
	complex rose and flower formations. Students will get the opportunity to make a variety of themed cakes
	including holiday, celebration, children, and wedding cakes.
DIRECTV Coding	Learn computer programming and coding with DirecTV engineers – at the DirecTV offices. This seminar will
and App	meet Tuesdays at DirecTV, and Thursdays here on the DVC/DVD campus. Students will learn the fundamentals
Development	of programming and create programs and apps – come start your path to becoming the next tech innovator!

Monday/Wednesday Seminars - DVC Fall 2015

Verbal Verbal What is green living? At the outset of this seminar students will be asked to define what they think, living sustainable Design & Green Living What is green living? At the outset of this seminar students will be asked to define what they think, living sustainable) is. This definition will be tested through a semester of research based on the collaboration of the built environment, current environmental policies and organizations that are being used to help define exactly what "sustainable" means. The ultimate test of the student's definition will be conducted through a project where they design something new or retrofit a current space or idea to support or possibly defy their original definition. To conclude the seminar the students will resubmit a definition with support from their semesters work. Film & Explore social, cultural, historical, political, and economic issues of the world through thought provoking film and documentary. Each week we will explore and critique various topics of the world. This seminar offers a healthy, fun, energetic way to express yourself and let off some steam! It will boost your confidence, and you! Ilbe part of a team of skilled performers. Be prepared to perform at CD and other community events! Bring water and clothes you can move in. WoodShop This course provides entry level of woodworking, instruction includes safety on all equipment, machine operations, and maintenance of equipment. Proper use of hand & power tools. We will be designing a skateboard deck and using a wood burning tool and stains to add designs to the board. Life Drawing is a studio based course for serious artists looking to build their portfolio for college submission. Life brawing is a studio based course for serious artists looking to build their portfolio for college submission. Life Drawing introduces students to drawing the human figure. Coursework will include direct observation and subsequent drawings from the model with emphasis on achieving correct form and proportions. Othe	SAT Prep:	This seminar will focus on preparing students for the English/verbal section of the SAT/ACT. We will discuss
Design & Green Living Sustainably is. This definition will be tested through a semester of research based on the collaboration of the built environment, current environmental policies and organizations that are being used to help define exactly what "sustainable" means. The ultimate test of the student's definition will be conducted through a project where they design something new or retrofit a current space or idea to support or possibly defy their original definition. Students will be expected to draw during class time. The Flow: Spoken Word If you've seen *Brave New Voices or Def Poetry Jam* then you've seen the power of spoken word, an art form older than hip hop with roots deeper than words. The Flow goes beyond jams, slams and battles into a deeper way of listening to yourself, learning to speak and express your story in your voice, and finding the courage to share with heart. The Flow focuses on the spoken word experience. This is an active, hands-on workshop where you will get immediate feedback on your work in a safe, respect filled environment. Some techniques to help the Flow include: The Rite of 'Riting 'Rong, Beyond freestyling: a multi-dimensional Flow, Breath and Beats: live drumming and breath work for focus, Overcoming FOPS: fear of public speaking, Mic Technique, and Coffeehouse Style Presentations. *Adwin David Brown (course teacher) is a BillBoard Top Ten spoken word recording artist, author and speaker. He created flowskool to help reimagine education and learning as creative adventures of discovery where all are free to find their Flow. Soccer This course is designed to introduce the basic fundamentals of soccer - passing, dribbling, shooting, and communication. Students also learn the rules, strategies, and proper etiquette as well as an appreciation for a lifetime activity. The scientific foundations of strength training will also be included in this course. The ability to perform the fundamentals will be demonstrated in game situations. Volleyball This course is designed to introduce the basic fundamentals of volleyball - passing, setting, hitting, and blocking.
