

USC Wrigley Marine Science Center, Catalina Island, CA

SUMMER MARINE LAB EXPERIENCE

INTRODUCTION

Spend one week this summer with a select group of high school students to explore the Earth's ocean, including the deep ocean...and life BELOW the ocean floor! We'll investigate the technology scientists use in challenging ocean environments and learn what these environments can tell us about the ocean's health, our own health, and our future.

QUALIFICATIONS

- Entering 9th, 10th or 11th grade fall 2018
- Must be US Citizen or have resident status
- Underrepresented students encouraged to apply
- Preference to first in family to go to college

DATES

June 26 - July 2,
2018

APPLICATION

Due by March 9
